Location

The EAA Storage Reservoirs Phase 1 project is located in the Everglades Agricultural Area (EAA) in western Palm Beach County and eastern Hendry County on lands purchased in the Talisman Land Agreement and the Woerner Property Acquisition.

Construction Features

The project has two components:

- **Above-ground reservoir capacity of 240,000 acre-feet of water including associated levees, canals, pump stations, and water control structures**
- **Conveyance capacity increases for the Miami, North New River, and Bolles and Cross canals**

Project Objectives

The reservoir capacity will provide for:

- **Irrigation requirements in the EAA**
- **Environmental deliveries of water to the WCAs**
- **Storage of regulatory releases from Lake Okeechobee**
- **Increased flood protection within the EAA**

Flows to the WCAs will be delivered through STA 3/4, and potentially, STA-2, STA-5 and STA-6.

EAA Storage Reservoirs Project Schedule

Estimated Project Costs

(x \$1,000)

PMP/PIR*	\$ 9,322
Detailed Design*	\$ 4,811
Plans and Specs*	\$ 1,604
Construction*	<u>\$ 217,372</u>
Project Total	\$ 233,109

*** From April 1999 Feasibility Report (Yellow Book)**

Agency Responsibilities for the PIR

- **CORPS**

**NEPA Coordination, Geotechnical Evaluation,
Survey and Mapping**

- **SFWMD**

**Watershed Assessment, H & H Analysis,
Alternative Design, and PIR**
